#### Course Numbers

The University uses a four-digit numbering system for all courses. The first digit indicates the level of the course: 1 for freshmen courses, 2 for sophomore courses, 3 for junior courses and 4 for senior courses; 5 and 6 indicate graduate courses, and 7 indicates doctoral courses. The second digit indicates the semester hour value of the course. The last two digits indicate the location of the course in the departmental sequence. English 2310, for example, is a sophomore-level course with a value of three semester hours. The first four digits in course number represent individual courses. When a fifth digit is used, it represents an area of concentration within a more general course, and is intended to provide a more accurate transcript of a student's work in a course.

#### Repeated Courses

The notation **E (Exclude)** is listed on the first course taken and indicates that the course was repeated at a later date. The grade with this notation has been removed from the GPA calculations. The notation **I (Include)** is listed on any consecutive course taken and the grade with this notation is included in the GPA calculations.

#### Academic Standing

The student is in good academic standing unless there is a statement to the contrary on this record.
